

iClean® Hands

Tough on Germs. Safe on Skin.

The new iClean® Hands turns tap water into Stabilized Aqueous Ozone (SAO®): a safe, sustainable hand sanitizer that kills 99.999% of germs.

Stronger than alcohol-based hand sanitizers, SAO is non-toxic, fragrance-free, and residue-free. SAO stops the spread of germs—while being gentle on skin.

- ▶ Safer on skin than traditional alcohol-based hand sanitizers and without the sticky residue;
- ▶ Fast, touch-free dispensing with a gentle, sanitizing mist;
- ▶ Powerful SAO kills germs, then quickly reverts to water and oxygen;
- ▶ Industrial-grade housing lasts long, ideal for high-traffic, public spaces;
- ▶ Easy installation, simple maintenance; available in wall mount or upright stand;
- ▶ Safe, non-flammable, no risk from accidental ingestion.

SDS Rating = 0-0-0

Perfect for:

- Healthcare Environments
- Workplaces
- Schools
- Homes
- Office Buildings

SAO® is Laboratory Tested and Government Regulated.
